Highly motivated and passionate Full Stack javascript Developer with a strong commitment to delivering exceptional results. Equipped with a comprehensive skill set and extensive experience in building robust and scalable web applications. A diligent and hardworking professional dedicated to staying up-to-date with the latest technologies and industry trends. Collaborative by nature, excelling in team-oriented environments while possessing excellent problem-solving and communication skills.

proficiencies

- Html, Css(Tailwind Css,material Ui,sass)
- JavaScript, React.js(webpack,vite),redux.
- Node.js, Express.js,web sockets
- MongoDB, Postgresql
- jest,git/github,YAML
- documentation & ci/cd pipelines.

Certifications

Google africa developer Training Program [[url](#)]

Andela Technical leadership program (ongoing)

freeCodeCamp javascript algorithms and data Structures [[url](#)]

WORK HISTORY

Andela

remote-NewYork(NY)

Full stack web developer

oct 2022 – may 2023

currently working as a full-stack developer as part of a team, with a focus on developing robust and scalable web applications.

- Develop web applications using React.js with either webpack &vite as the module bundler, Redux for state management, and Tailwind for styling.
- Leveraged Node.js and Express.js to develop the server-side components and build restful apis for web applications, with MongoDB & Postgresql as database technologies.
- Tested the application using Jest and maintained version control using Git/GitHub.
- Implemented web sockets for real-time communication between the client and server for live chat features.
- Developed documentation and CI/CD pipelines for efficient project management.
- Collaborated with stakeholders to identify and prioritize their needs and plan sprints accordingly in an agile development environment.
- Ensured that the application was of high quality and met the requirements of stakeholders.

Demonstrated proficiency in React.js, Redux, Node.js, Express.js, MongoDB, Postgresql, Jest, Git/GitHub, web sockets, and documentation & CI/CD pipelines.

AGCERAmoz

Full stack web developer

remote-maputo/Mozambique

april2022 – oct 2022

Designed and developed and [deployed](#) a web application for this business using React, Material UI, and Firebase as a Full Stack Developer.

- Developed both front-end and back-end for the application, ensuring it was responsive and user-friendly.

- Implemented new features while maintaining security standards throughout the project.
- Collaborated with business stakeholders to understand their needs and delivered high-quality code that met their requirements.
- Utilized full-stack development skills to provide valuable expertise in the project.
- Demonstrated proficiency in React, Material UI, and Firebase to develop the web application.
- Prioritized user experience and security in the design and development of the application.
- Communicated effectively with project stakeholders to ensure successful delivery of the project.
- Utilized best practices and industry standards to develop and maintain the application.
- Contributed to the successful launch of the web application for the business.

Freelance

kigali-Rwanda

Front-end developer

november2021 – april2022

As a Front-end Developer, my primary responsibility will be to develop and maintain a unified design system using React, ES6, and sass. This will involve collaborating with the design team to implement Figma designs into reusable components, writing clean and efficient code that meets design requirements, optimizing components for maximum speed and scalability, and troubleshooting and debugging issues that arise in dependent applications.

Professional Skills

Frontend UI/UX design: Skilled in creating visually appealing and user-friendly interfaces using modern design tools like figma and frameworks such as React.js, Tailwind CSS, and Material UI.

Backend server/API development: Experienced in building and maintaining server-side applications and APIs using Node.js, Express.js, with database technologies like mongoDb & postgresql.

Teamwork: Demonstrated ability to work collaboratively with other developers, designers, and stakeholders to deliver successful projects.

Code validation/bug-fixing: Proficient in debugging and troubleshooting code to ensure optimal performance and functionality.

Education

UNIVERSITY OF RWANDA

april 2021-present

Bsc (Hons.) IN ELECTRONICS AND TELECOMMUNICATIONS ENGINEERING

- Completed 2 years and 65 credits 3 gpa .
- Relevant coursework: Programming in C++/C,Digital Electronics, Digital Signal Processing,Communication Systems.
